

9 Towards Smart City a scientific approach
Rocco Papa

1. MOBILITY

17 1.1 Transport, ICT and the City. Why Are Cities Interested in ICT?
Ilaria Delponte

27 1.2 The Relationship Between Urban Structure and Travel Behaviour: Challenges and Practices
Mehdi Moeinaddini, Zohreh Asadi-Shekari, Muhammad Zaly Shah

41 1.3 The Italian Way to Car Sharing
Antonio Laurino, Raffaele Grimaldi

53 1.4 City and Mobility. Towards an Integrated Approach to resolve Energy Problems
Carmela Gargiulo, Valentina Pinto, Floriana Zucaro

2. ENERGY

81 2.1 Smart Building Environments and Energy Saving: Experiences from Europe
Diego Carlo D'Agostino

87 2.2 Energy Component and Smart City Planning: Best Practices in Italy
Rosaria Battarra

103 3.1 Urban Space and Safety
Rosa Grazia De Paoli

115 3.2 Towards Resilient Cities. Comparing Approaches/Strategies
Angela Colucci

129 3.3 Urban Resilience and Ecosystem Services: How Can Be Integrated in the Case of Istanbul-Sultanbeyli District?
Azime Tezer, Zeynep Deniz Yaman, Ayse Ozyetgin Altun, Ilke Albayrak

145 3.4 How to Improve Urban Resilience? Insights into the Role of Critical Infrastructures Disaster Mitigation Strategies
Sara Bouchon, Carmelo Di Mauro

159 3.5 Enhancing Urban Resilience in Face of Climate Change: a Methodological Approach
Adriana Galderisi, Floriana Federica Ferrara

4. SUSTAINABILITY

179 4.1 Intangible Fruitions: Virtualization of Cultural Heritage for Territorial Promotion
Mauro Francini, Maria Colucci, Annunziata Palermo, Maria Francesca Viapiana

189 4.2 Scenario Analysis: Toward a Change in the Use of the Soil Consumption Paradigm
Giuseppe Mazzeo

199 4.3 From Sustainable City to Smart City
Rosa Anna La Rocca
